#076:Chris Wildrick: Anti-entropy Action (2016)

The performer will spread helpful order throughout their environment by fixing the organization and order of the wares at music stores, comic stores, book stores, libraries, and so on.

For instance, go to a library and check through the shelves. If there are any books out of order, put them in the right place. Or, go to a record store and fix the order of the records.

The goal of this project is to help other people who may use the store/resource, and to counteract entropy by creating order instead of disorder.
